

Mariner Value Strategies, LLC announces name change to Nuance Investments, LLC

FOR RELEASE 06/01/10

Kansas City, MO – Mariner Value Strategies, LLC, a value-oriented investment firm, today announced the changing of its official operating name to Nuance Investments, LLC (“Nuance”). Nuance will continue to operate as an employee-owned partnership with Mariner Holdings, LLC.

Nuance Investments, LLC was formed on the belief that the ability to outperform the broad stock market is predicted on a consistent and disciplined investing approach. Nuance’s sole focus is on generating investment returns for their clients by diligently reviewing one company at a time on its own investment merits. Nuance consistently searches for leading business franchises with good financial strength, that are priced below their proprietary view of intrinsic value, providing investors with a distinctly advantaged investment product over the long term.

Scott A. Moore, President and Chief Investment Officer of Nuance Investments, commented, “The name Nuance was chosen to help convey the subtle, yet important, differences that our investment team uses as we research each company that we invest in for our clients. These distinctions are critical to how the team determines intrinsic value and therefore are ultimately what sets our consistent and disciplined strategies apart.”

Clients should not expect any fundamental changes to the products, team or process of Nuance Investments, LLC.
